EVERGREENS . . . ORNAMENTALS

We offer here some of the more popular ornamentals. These are in the advanced younger grades. They are well rooted, sturdy, and ready for planting where you want them to remain. They are easily handled, adapt readily, and you will have the fun of watching them grow, shearing them, or letting them develop naturally. They are priced as low as possible for top quality, selected specimens of their age. These prices are about one-third less than market.

Shipment usually express collect; by parcel post if cheaper, or preferred by customer.
